PROFESSIONAL SUMMARY

Data Science enthusiast and B.Tech CSE student with strong foundations in Python, Java, AI/ML, and full-stack backend development. Certified IBM AI Developer with hands-on experience in data analysis, generative AI applications, and robust software engineering practices. Passionate about leveraging data-driven solutions and cutting-edge technologies to solve complex architectural challenges. Actively seeking opportunities to contribute to innovative projects in data analytics, cloud architecture, and AI-powered product ecosystems.

EDUCATION

Einstein Academy of Technology and Management (EATM) Bhubaneswar, Odisha

Bachelor of Technology (B.Tech) in Computer Science and Engineering (Data Science) · Affiliated to BPUT Aug 2024 – Aug 2028
Odisha

- **Academic Performance:** Demonstrated rigorous academic excellence with a 3rd Semester SGPA of **9.18 / 10.00**.
- **Relevant Coursework:** Data Structures & Algorithms (DSA), Database Management Systems (DBMS), Machine Learning, Big Data Analytics, Cloud Computing, Data Engineering, Server-Side Programming.

TECHNICAL SKILLS

Programming Languages:	Java, Python, C, JavaScript, SQL
AI & Machine Learning:	Generative AI, Prompt Engineering, AI Model Development, Model Integration
Backend & Databases:	MySQL, Google Firebase, RESTful APIs, Database Design, Server-side architecture
Frontend & UI/UX:	React, HTML5, CSS3, UI/UX Design (Modern Glassmorphism & Minimalist Layouts)
Tools & Platforms:	Advanced Excel, Jupyter Notebook, Google Colab, Git, GitHub, Vercel, VS Code
Soft Skills:	Analytical Thinking, Complex Problem-solving, Cross-functional Team Collaboration, Continuous Learning

ACADEMIC & TECHNICAL PROJECTS

Smart Campus System [[Live Project](#)] Java, React, MySQL, Firebase, Vercel

- Engineered and launched a full-stack maintenance and student query management system optimized for college administrative workflows and issue tracking.
- Architected relational backend infrastructure integrating **MySQL** and **Google Firebase** to securely manage cross-platform student portal authentication and real-time query serialization.
- Designed a highly responsive modern web UI featuring custom high-contrast configurations to maximize user navigation accessibility across campus devices.

Real-Time Weather Forecasting Application JavaScript, React, OpenWeatherMap API, Vercel

- Developed a dynamic, client-side web application leveraging live third-party RESTful APIs to stream real-time global meteorological forecasts.
- Configured modular, reusable functional React components to parse and map structural JSON response streams efficiently.

CERTIFICATIONS

IBM AI Developer Professional Certificate – IBM via Coursera	2024
Python for Data Science, AI & Development – IBM via Coursera	2024
Generative AI: Prompt Engineering Basics – IBM via Coursera	2024
Bootcamp on Big Data & Data Science – Certification Authority	2024
Introduction to Software Engineering – IBM via Coursera	2024

LEADERSHIP, ACHIEVEMENTS & ACTIVITIES

Full-Stack Developer & Team Lead – Hackathon Competition	March 2026
- Directed a cross-functional technical team as the lead full-stack engineer to design, prototype, and scale an end-to-end software application under intense competition time frameworks. - Established robust Git/GitHub workflow guidelines, mitigating code regression and managing feature branch synchronization seamlessly.	
Technical Event Organizer – Java Programming Competition	December 2025
- Spearheaded core visual presentation layouts and system logistical pipelines for a college-wide algorithmic tournament at the Einstein Academy campus. Professional Credentials: Successfully completed 5+ industry-aligned professional certifications from IBM and Coursera spanning Artificial Intelligence, Advanced Data Science methodologies, and Core Software Engineering. Open Source & Competitive Coding: Actively contributes to code version repositories and maintains consistent problem-solving practice on platforms including LeetCode and HackerRank to master Data Structures and Algorithms (DSA). Autodidactic Learning: Proven agility in independently learning, deploying, and integrating new framework ecosystems rapidly within technical project layers.
